# 01 CIO Africa

MEDIA & TECHNOLOGY

Nairobi, Kenya · cioafrica.co

East Africa's leading media platform for enterprise technology and digital leadership — serving CIOs and senior technology decision-makers across the continent. Four distinct digital products built, deployed and maintained, spanning news media, digital publishing, event management and live audio streaming.

## CIO Africa News cioafrica.co

Enterprise technology news site covering AI, cloud, fintech and digital transformation for senior leaders across Africa. High-performance editorial platform with real-time publishing workflows and SEO-optimised content delivery.

## 02 Digital Health Agency

GOVERNMENT · HEALTHCARE

Republic of Kenya · dha.go.ke

Kenya's government body responsible for digitalising the national health infrastructure, including the Social Health Authority (SHA) platforms. Built their public-facing website and custom CMS — giving the agency a credible, independently managed digital presence aligned with their mandate to modernise healthcare delivery across Kenya.

**Digital Health Agency Kenya — Public Website**  
dha.go.ke

Public-facing website presenting the agency's mandate, services, digital health ecosystem and stakeholder engagement pathways. Delivered with a custom CMS enabling the communications team to independently publish news, reports and regulatory information without developer involvement.

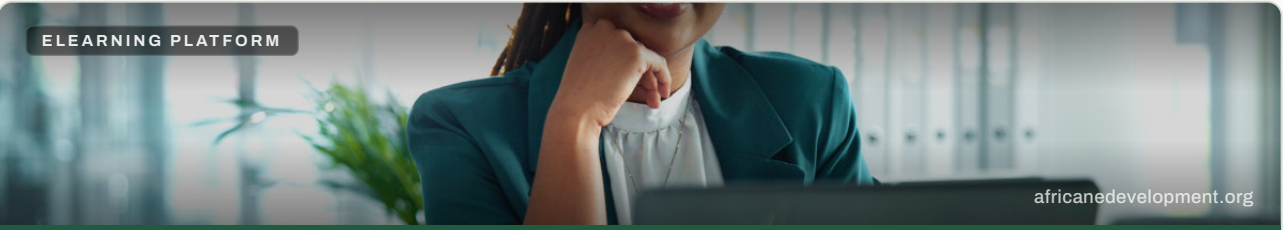

GOVERNMENT · CUSTOM CMS · HEALTHCARE · ACCESSIBILITY · PERFORMANCE · KENYA

## 03 African eDevelopment Resource Centre

EDUCATION · ELEARNING

Africa · africanedevlopment.org

Delivers professional development and capacity-building programmes online across Africa. Built their eLearning platform — enabling course listing, enrolment, structured content delivery and learner progress management at continental scale.

**African eDevelopment Online Courses Platform**  
africanedevlopment.org

Full-featured eLearning platform offering online courses in professional and digital skills across Africa. Features course catalogue browsing, learner enrolment, structured content delivery, progress tracking and certification — with an admin interface for instructors to manage courses and learner cohorts.

LMS · COURSE MANAGEMENT · ENROLMENT · PROGRESS TRACKING · AFRICA-WIDE

## 04 ICT Authority — Kenya

GOVERNMENT · EVENTS

Republic of Kenya · [connected.go.ke](https://connected.go.ke)

Kenya's government body for regulating and advancing ICT across the public sector. Built the platform for the Connected Africa Summit — a major annual pan-African ICT event — managing the full event lifecycle from discovery and ticketing through to on-site delegate check-in.

### Connected Africa Summit [connected.go.ke](https://connected.go.ke)

Official platform for the 15th annual Connected Africa Summit, held at The Edge Convention Centre, Nairobi. Handles event listing, delegate registration, secure online ticket purchasing, sponsor and exhibitor management, and real-time on-site QR-based attendee check-in — built to operate at the scale of a continental government gathering.

## 05 Young Women's Leadership Institute

NGO · CIVIC TECH · AI

Nairobi, Kenya · [report.ywlikkenya.org](https://report.ywlikkenya.org)

YWLI Kenya empowers young women and girls through leadership, advocacy and safety initiatives. Built their AI-powered safety reporting platform — combining a sensitive public reporting interface with a custom machine learning model trained on YWLI's own lexicon.

### YWLI Safe Space — AI-Powered Safety Reporting Platform [report.ywlikkenya.org](https://report.ywlikkenya.org)

A digital safe space where young women and girls can securely report safety concerns spanning harassment, abuse, cyberstalking and gender-based violence. Features an anonymous public reporting UI, an encrypted admin dashboard for case review, and a custom AI classification model trained on YWLI's lexicon that automatically categorises harmful language — reducing case worker burden and accelerating response times.

## 06 Darwin's Animal Nutrition & Vet Services

AGRICULTURE · VETERINARY

Kenya · darwinsnutrivet.com

A Kenyan agri-business providing targeted nutrition solutions and veterinary consultancy to livestock farmers. Built their commercial web presence — giving a specialist, science-led business a digital platform that matches the credibility of their products and services.

### Darwin's Animal Nutrition & Vet Services

darwinsnutrivet.com

Professional corporate website showcasing feed formulation products, mineral supplements, laboratory services, breeding consultancy and production systems design. Designed to build trust with commercial farmers while communicating a science-backed, results-driven brand positioning.

## *Ready to deliver* the same standard of work for Lybra.

Across government, media, civic technology and education, each platform in this portfolio was built to spec, deployed to production and handed over in a state its owner could operate independently. That is the same commitment I bring to every engagement — and the same standard I would apply to Lybra's revamped website.
